C·A·S·C

Colleges' Administration Software Consortium

PRODUCT INFORMATION

Payment Preparation System

CASC specialises in software to meet colleges' needs that are not addressed by or satisfied by commercial products. PPS is currently used in 27 Colleges.

Key features

- CamCORS claims

Supervision and other claims are imported from CamCORS. Payment details are taken from the CamCORS data but can be overridden by data held in PPS. PPS can apply an uplift to claims, if required.

- Non-CamCORS claims

Other claims can be imported from CamCORS or entered manually e.g. interviews, invigilation, DoS payments.

- Payments

BACS and other import files can be generated. Remittance advices can be emailed to payees.

- Reports and statistics

Including HMRC return, breakdown of hours and costs by supervisor, subject or tripos.

Costs

The Colleges' Administration Software Consortium (or "CASC") is a trading name for the Office of Intercollegiate Services Ltd.

The charge for using PPS is included in the cost of CamCORS which is part of the OIS levies.

Technical information

PPS is a web-based system hosted centrally by CASC. It is developed on an ASP.NET platform with Microsoft SQL Server as the back-end database.

Users log in using Cambridge SSO.
